DIFFERENTIAL EQUATIONS

Volume 30, Numbers 1–12, 1994

(A translation of *Differentsial'nye Uravneniya*)

Engl./Russ.

Volume 30, Number 1, January, 1994

## ORDINARY DIFFERENTIAL EQUATIONS

The Structure of the Set of Lyapunov Characteristic Exponents for Exponentially Stable Quasilinear Systems – E. A. Barabanov and I. A. Volkov . . . 1 3

Basis Properties of Eigenfunctions of Some Not Self-Adjoint Differential Operators – B. T. Bilalov and Yu. K. Yusifaliev . . . . . 16 20

On the Regularization of Singular Functional-Differential Equations – E. I. Bravyi . . . . . 22 26

Asymptotics of Eigenvalues of a Singular Differential Operator – V. V. Dubrovskii and V. Kh. Aliverdiev . . . . . 29 35

On the Green Function of a Boundary Value Problem on a Graph – I. G. Karelina and Yu. V. Pokornyi . . . . . 35 41

Necessary Conditions for the Hilbert Inequality for the Set of Root Functions of an Ordinary Second-Order Differential Operator – A. A. Malov . . . . 41 48

A Componentwise Estimate for the Difference of Partial Sums of the Expansions of a Vector-Valued Function with Monotone Components in the Root Vector-Valued Functions Corresponding to Two Shrödinger Operators with Non-Hermitian Matrix Potentials – E. I. Nikol'skaya . . . 52 60

Expansion in Eigenfunctions of the Differentiation Operator with a Smeared Boundary Condition – A. M. Sedletskii . . . . . 61 70

Special Boundary Value Problems for Differential Equations in a Hilbert Space – A. Kh. Shamilov . . . . . 68 77

## PARTIAL DIFFERENTIAL EQUATIONS

$L_2$-Estimates of Solutions to Model Boundary Value Problems for a Mixed Parabolic-Elliptic System – M. A. Abdrakhmanov . . . . . 74 84

Operator-Differential Equations with Nonregular Boundary Conditions and Applications – I. V. Aliev . . . . . 84 95

Estimates of Solutions to the Dirichlet Problem for Second-Order Nondivergent Elliptic Equations in a Neighborhood of a Conic Point of the Boundary – M. V. Borsuk . . . . . 94 104

On the Hölder Property of Derivatives of Solutions to Second-Order Parabolic Equations in Nontube Domains – I. A. Gasanova . . . . . 100 109

On Systems of Root Vector-Valued Functions Corresponding to Matrix Eigenvalues of the Laplace Operator – V. A. Gorelov . . . . . 110 119

| | Engl. | Russ. |
|---|---|---|
| The System of Root Functions of the Directional Derivative Problem Is Not a Basis – V. A. Il'in and E. I. Moiseev | 119 | 128 |
| The Existence of a Well-Posed Two-Point Boundary Value Problem in a Layer for Systems of Pseudodifferential Equations – A. A. Makarov | 133 | 144 |
| Solvability of Boundary Value Problems for Parabolic and Polyparabolic Equations in a Nontube Domain with Nonsmooth Lateral Boundary – M. O. Orynbasarov | 139 | 151 |
| The Construction of a Semibounded Functional for a Boundary Value Problem for the Nonlinear Unsteady Navier-Stokes Equations – V. M. Savchin | 149 | 162 |
| **SHORT PRELIMINARIES** | | |
| On the Eigenvalues of Some Class of Not Self-Adjoint Operators – T. S. Aleroev | 156 | 169 |
| Regularization of a Control Problem with Uncertainty for a Dynamical System in a Hilbert Space – A. R. Danilin | 160 | 172 |
| Finite Difference Approximations for the Multidimensional Equation of Convective Diffusion – S. L. Lapko and A. N. Rashid | 164 | 175 |
| A Distribution of Finite-Multiplicity Eigenvalues of Neumann Extensions of an Elliptic Operator – V. A. Mikhailets | 167 | 178 |
| **Volume 30, Number 2, February, 1994** | | |
| **ORDINARY DIFFERENTIAL EQUATIONS** | | |
| On the Convergence of Normalizing Transformations for a Nonautonomous System of Differential Equations with a Small Parameter by the Derivative – V. V. Basov | 169 | 187 |
| Sufficient Conditions for the Hilbert Inequality to Be Satisfied for the System of Root Functions of an Ordinary Second-Order Differential Operator – A. A. Malov | 177 | 197 |
| The Truncation Method in Constructing Invariant Tori of Countable Systems of Differential Equations – A. M. Samoilenko and Yu. V. Teplinskii | 184 | 204 |
| On Decreasing Perturbations That Preserve Characteristic Vectors of Linear Systems – O. P. Stepanovich | 193 | 213 |

| **ORDINARY DIFFERENTIAL EQUATIONS** | | |
| Sufficient Stability Conditions for Stochastic Systems with Aftereffect – R. I. Kadiev | 509 | 555 |
| Structure of Neighborhoods of Compact Weak Attractors – B. S. Kalitin | 518 | 565 |
| The Phase Portrait of the Set of Special Solutions to Autonomous Functional Differential Equations – A. D. Myshkis | 526 | 575 |
| The Existence of a Smooth Invariant Foliation for Lorentz-Type Maps – M. V. Shashkov and L. P. Shil'nikov | 536 | 586 |
| **PARTIAL DIFFERENTIAL EQUATIONS** | | |
| Global Solvability of a Class of Quasilinear Systems of Composite Type with Nonsmooth Data – A. A. Amosov and A. A. Zlotnik | 545 | 596 |
| Uniform Correctness of a Family of Infinite-Order Nonlinear Boundary Value Problems – G. S. Balashova and Yu. A. Dubinskii | 559 | 610 |
| An Approximation to 'Ground State' Solutions for the Equation $-\Delta u = g(u)$ in $\mathbf{R}^{N+1}$ – Ya. Sh. Il'yasov | 570 | 621 |
| Boundary Value Problems with Even Number of Solutions – V. S. Klimov | 580 | 630 |
| Existence Theorems for Solutions to Nonlinear Elliptic Problems in $\mathbf{R}^N$ in the Class of Block-Radial Functions – I. A. Kuzin | 587 | 637 |
| Mathematical Model of Modulated Wave Generation in a Gas-Saturated Porous Medium – A. M. Maksimov, E. V. Radkevich, and I. Ya. Édel'man | 596 | 647 |
| Positive Solutions to the Emden-Fowler Equation in a Cone – Nguen Min' Chi | 608 | 659 |
| Passing to the Limit with Respect to Viscosity in an Equation with Variable Parabolicity Direction – P. I. Plotnikov | 614 | 665 |
| A Nonlinear Elliptic Problem of H. Amann – S. I. Pokhozhaev | 623 | 675 |
| A Generalization of the Vanderbauwhede Variational Principle – V. M. Filippov | 639 | 692 |
| Convergence Rate for the Closure of the Chain of Moment Equations Corresponding to the Navier-Stokes System with Stochastic Right-Hand Side – A. V. Fursikov and O. Yu. Émanuilov | 646 | 699 |

| | Engl. | Russ. |
|---|---|---|
| Uniqueness of the Global Semiclassical Solution to the Cauchy Problem for First-Order Nonlinear Partial Differential Equations – Tran Duc Van and Nguyen Duy Thai Son | 659 | 712 |

**SHORT PRELIMINARIES**

| | | |
|---|---|---|
| Existence of Asymptotically Recurrent Motions in Dynamical Systems – A. Yu. Aleksandrov | 667 | 720 |
| Generalized Solvability of Loaded Wave Equation – M. T. Dzhenaliev | 670 | 723 |
| Analytic Continuation of Solutions to Ordinary Differential Equations – Yu. A. Dubinskii | 672 | 725 |
| Asymptotic Equivalence Under Perturbations of Diagonal Systems – S. A. Mazanik | 675 | 728 |
| Partial Differential Equations with an Operator of Finite Index at the Principal Part – N. A. Sidorov, O. A. Romanova, and E. B. Blagodatskaya | 676 | 729 |

**Volume 30, Number 5, May, 1994**

| | | |
|---|---|---|
| Multidimensional Dynamical Systems – B. A. Shcherbakov | 679 | 739 |

**ORDINARY DIFFERENTIAL EQUATIONS**

| | | |
|---|---|---|
| Absolute Stability in Controlled Systems – S. A. Aisagaliev | 687 | 748 |
| Linear Differential Equations with Distribution Coefficients in the Theory of Mnemofunctions – A. B. Antonevich and A. V. Turlo | 696 | 758 |
| On the Shortest Sub-Riemannian Geodesics – N. N. Petrov | 705 | 768 |
| Stochastic Stability of the Zero Solution to a System of Differential Equations with Random Coefficients – V. D. Potapov | 712 | 776 |
| Smoothness of the Invariant Torus of a Countable Linear Extension of a Dynamical System on the $m$-Dimensional Torus – A. M. Samoilenko and Yu. V. Teplinskii | 717 | 781 |
| Hamiltonian Property of the Painlevé Equations and the Method of Isomonodromic Deformations – B. I. Suleimanov | 726 | 791 |
| Asymptotic Decomposition of Boundary Value Problems for Abstract Differential Equations – S. L. Édel'shtein | 733 | 797 |

**PARTIAL DIFFERENTIAL EQUATIONS**

| On a Class of $(n+1)$st-Order Systems with Single-Valued Solutions – I. P. Martynov and V. A. Pron'ko | 1185 | 1277 |
| An Exponential Separation Criterion for a Linear System – M. I. Rakhimberdiev | 1187 | 1279 |
| Absolute Stability of Nonlinear Systems with High-Frequency Parametric Excitation – A. V. Savkin | 1191 | 1282 |

Engl./Russ.

Volume 30, Number 8, August, 1994

## ORDINARY DIFFERENTIAL EQUATIONS

Nonmonotone Lyapunov Functionals. Stability Conditions for Delay Differential Equations – I. V. Gaishun and L. B. Knyazhishche . . . . . 1195 1291

Ordinary Differential Equations with Discontinuous Right-Hand Sides – V. V. Filippov . . . . . 1201 1299

Periodic Relaxational Solutions to a Nonlinear Autonomous System of Differential Equations Describing the Kinetics of a Chemical Reaction – A. V. Shobukhov . . . . . 1208 1307

## PARTIAL DIFFERENTIAL EQUATIONS

A Model Elliptic Equation with a $\delta$-Shaped Coefficient – A. B. Antonevich and N. V. Fursenko . . . . . 1218 1317

Energy Estimates of Solutions and the Unique Solvability of the Fourier Problem for Linear and Quasilinear Parabolic Equations – N. M. Bokalo . . . . . 1226 1325

Pointwise Stabilization of Solutions to Parabolic Equations with Periodic Coefficients in a Perforated Space – K. V. Valikov . . . . . 1235 1335

Asymptotic Expansion of the Solution to a Mixed Problem for the Wave Equation in the Exterior of a Disappearing and a Nontrapping Obstacle – M. I. Ganzha . . . . . 1249 1350

One-Sided Estimates of Solutions to the Cauchy Problem for Second-Order Parabolic Equations in the Class of Rapidly Growing Functions. II – L. I. Kamynin and B. N. Khimchenko . . . . . 1262 1362

Uniform Boundedness of Solutions to Nonlinear Elliptic Variational Inequalities in Variable Domains – A. A. Kovalevskii . . . . . 1270 1370

On Regularization and Correction of Noncoercive Nonlinear Equations of Monotone Type – M. Yu. Kokurin . . . . . 1274 1374

Stationary Lyapunov Problem for a System of First-Order Quasilinear Partial Differential Equations – N. B. Konyukhova . . . . . 1284 1384

Solvability of the Conjugation Problem Describing the Diffusion of Impurities in Silicon – V. I. Korzyuk and E. S. Cheb . . . . . 1295 1396

Mixed Problem for A Strongly Degenerate Evolution System – S. P. Lavrenyuk . . . . . 1303 1405

Boundary Value Problem for Even-Order Differential Equations with Variable Domains of Operator Coefficients – F. E. Lomovtsev . . . . . 1310 1412

Unique Solvability of the Problem of Determining the Shape of a Periodic Surface from the Backward Scattering Data – A. G. Mikheev . . . . . 1323 1426

Asymptotic Relations Between Solutions to Various Nonlinear Equations at Large Time. II – P. I. Naumkin and I. A. Shishmarev . . . . . 1329 1432

Averaging in a Mixed Directional Derivative Problem for an Elliptic Operator in a Perforated Domain – S. E. Pastukhova . . . . . 1341 1445

On an Eigenfunction of a Boundary Value Problem in a Disk – E. G. Sitnikova . . . . . 1352 1457

| | Engl. | Russ. |
|---|---|---|
| **SHORT PRELIMINARIES** | | |
| Smooth Orbital Equivalence in a Neighborhood of a Critical Point on a Plane – I. U. Bronshtein and I. V. Nikolaev | 1357 | 1462 |
| Boundedness of Normalized Eigenfunctions of the Sturm-Liouville Problem Under Minimum Restrictions on the Smoothness of the Coefficients – V. Ya. Yakubov | 1361 | 1465 |

**Volume 30, Number 9, September, 1994**

| | | |
|---|---|---|
| **ORDINARY DIFFERENTIAL EQUATIONS** | | |
| Minimization of Convex Functions on Convex Sets by Means of Differential Equations – A. S. Antipin | 1365 | 1475 |
| On a Second-Order System of Differential Equations and Its Periodic Solutions – V. N. Gorbuzov | 1376 | 1487 |
| Existence of Optimal Controls and Necessary Optimality Conditions for Partially Observable Diffusion Processes – N. G. Dokuchaev | 1386 | 1498 |
| On Polynomial Representations of Central High-Order Exponents – N. A. Izobov | 1395 | 1508 |
| Basis Property and Equiconvergence with the Trigonometric Series of Root Function Expansions and the Form of Boundary Conditions for a Nonself-Adjoint Differential Operator – V. A. Il'in | 1402 | 1516 |
| **INTEGRAL EQUATIONS** | | |
| On Isolating Solutions to a Class of Nonlinear Integral Equations – M. D. Babich | 1414 | 1530 |
| Singular Integral Operators in a Domain with Corners on a Plane – V. B. Vasil'ev | 1426 | 1542 |
| Theory of Singular Solutions to Singular Integral Equations and Its Application to Diffraction Problems – I. I. Lifanov and I. K. Lifanov | 1436 | 1553 |
| E. Goursat's Remark and Its Applications – E. L. Perchik | 1443 | 1561 |
| Approximate Solution to the Riemann Problem with Discontinuous Coefficients and Right-Hand Side on an Open Contour – A. P. Svetnoi and N. S. Yashchuk | 1448 | 1566 |
| A System of Integral Equations Arising in Nonstationary Aerodynamic Problems – A. V. Setukha | 1455 | 1574 |
| **NUMERICAL METHODS. EQUATIONS IN FINITE DIFFERENCES** | | |
| On the Stability of Isolated Stationary Points of Difference Equations with Mixed Monotonicity of the Right-Hand Side. II – R. Z. Abdullin | 1464 | 1584 |
| *A Posteriori* Observation-Estimation Problem for Two-Parameter Discrete Systems with Fuzzy Description of Noise and Perturbations – A. I. Astrovskii and S. K. Korzhenevich | 1473 | 1594 |
| On Error of the Collocation Method for Singular Integral Equations with Conjugation – V. D. Didenko | 1480 | 1601 |
| An Approximate Method for Solving the Prandtl Integral Equation for a Foil with Corner – I. K. Lifanov and L. N. Poltavskii | 1486 | 1607 |

| | Engl. | Russ. |
|---|---|---|
| Approximate Solution to Singular Integral Equations Under Conditions of Incomplete Information – A. F. Matveev | 1496 | 1617 |
| Solving Weakly Singular Integral Equations by the Method of Subdomains – A. Pedas | 1505 | 1626 |
| A Numerical Scheme for the Multhopf Integral Equation – L. N. Poltavskii | 1514 | 1635 |
| Approximate Solution of Two-Sided Three-Element Boundary Value Problems with Shifts and Their Applications – N. Ya. Tikhonenko | 1524 | 1645 |

**Volume 30, Number 10, October, 1994**

## ORDINARY DIFFERENTIAL EQUATIONS

| | | |
|---|---|---|
| Approximate Equivalence Transformations – V. A. Baikov, R. K. Gazizov, and N. Kh. Ibragimov | 1531 | 1659 |
| Uniform Exponents of Linear Systems of Differential Equations – E. A. Barabanov and A. V. Konyukh | 1536 | 1665 |
| Linear Fredholm Boundary Value Problems for a Sampled-Data Differential System with Retarded Argument – A. A. Boichuk, V. F. Zhuravlev, and A. M. Samoilenko | 1546 | 1677 |
| Properties of a Local Lie Group that Leaves Invariant the Hamiltonian Function of a Finite-Dimensional System – I. S. Emel'yanova | 1552 | 1683 |
| Control over the Lyapunov Exponents of Consistent Systems. I – S. N. Popova and E. L. Tonkov | 1556 | 1687 |

## PARTIAL DIFFERENTIAL EQUATIONS

| | | |
|---|---|---|
| An Invariant Difference Model for the Equation $u_t = u_{xx} + \delta u \ln u$ – M. I. Bakirova and V. A. Dorodnitsyn | 1565 | 1697 |
| A Classification of Third-Order Painlevé Partial Differential Equations – N. S. Berezkina, I. P. Martynov, and V. A. Pron'ko | 1571 | 1703 |
| On an $R$-Solution Generated by a Generalized Hyperbolic Differential Equation – A. N. Vityuk | 1578 | 1710 |
| Two-Radius Theorems for Bounded Domains in Euclidean Spaces – V. V. Volchkov | 1587 | 1719 |
| Higher Lie-Bäcklund Symmetries of Diagonal Systems of Hydrodynamic Type – E. I. Ganzha | 1593 | 1725 |
| On a Class of Integral Operators and Their Applications to Quasielliptic Equations. II – G. V. Demidenko | 1599 | 1731 |
| Parabolic Equations Without the Cauchy Boundary Condition and Problems on Control over Diffusion Processes. I – N. G. Dokuchaev | 1606 | 1738 |
| One-Sided Estimates of Solutions to the Cauchy Problem for Second-Order Parabolic Equations in Classes of Rapidly Growing Functions. III – L. I. Kamynin and B. N. Khimchenko | 1618 | 1750 |
| Bounded Solutions and Solutions Periodic in a Strip Region to Quasilinear Hyperbolic Systems – T. I. Kiguradze | 1628 | 1760 |
| On Analytic Solutions to the Cauchy Problem for Parabolic Equations – Yu. F. Korobeinik | 1640 | 1774 |

| | Engl. | Russ. |
|---|---|---|
| The Behavior of Solutions to the Cauchy Problem for Quasilinear Second-Order Parabolic Equations – V. V. Kurta | 1647 | 1782 |
| Isobaric Gas Motions – L. V. Ovsyannikov | 1656 | 1792 |
| *A Priori* Estimates for Solutions to the Biharmonic Equation – V. G. Prikazchikov and A. A. Klunnik | 1663 | 1800 |
| Generalized Solvability of Elliptic Equations with Discontinuous Nonlinearities – U. E. Raitum and A. B. Tsibulis | 1669 | 1806 |
| Optimal Systems of Subalgebras and Second-Rank Invariant Solutions to Three-Dimensional Euler Equations – Yu. V. Shan'ko and O. V. Kaptsov | 1678 | 1814 |
| **SHORT PRELIMINARIES** | | |
| Approximate Symmetries of a Van der Pol Equation – V. A. Baikov | 1684 | 1820 |
| Normal Extensions of Second-Order Differential Operators – F. G. Maksudov and Z. I. Ismailov | 1687 | 1823 |
| On a Class of Partially Invariant Solutions Describing Plane Gas Flows – S. V. Meleshko | 1690 | 1825 |
| Formulas for the Solution to the Tricomi Problem for the Lavrent'ev-Bitsadze System – T. V. Chekmarev | 1694 | 1828 |
| Mikhail Mikhailovich Khapaev (A tribute in honor of his 60th birthday) | 1696 | 1830 |

**Volume 30, Number 11, November, 1994**

| | Engl. | Russ. |
|---|---|---|
| **ORDINARY DIFFERENTIAL EQUATIONS** | | |
| On Finite Convergence of Processes to a Sharp Minimum and to a Smooth Minimum with a Sharp Derivative – A. S. Antipin | 1703 | 1843 |
| Calculation of Conjugate Variables in Extending Optimal Paths for Problems Linear with Respect to the Controls – A. P. Afanas'ev | 1714 | 1855 |
| Algorithms of Velocity Gradient and Velocity Difference in a Nonlinear Control Problem: Stepwise Synthesis – M. V. Druzhinina and A. L. Fradkov | 1719 | 1861 |
| Affine Controlled Systems, Affine Distributions, and $t$-Codistributions – V. I. Elkin | 1726 | 1869 |
| Symmetries and Decomposition of Nonlinear Systems – A. N. Kanatnikov and A. P. Krishchenko | 1735 | 1880 |
| On the Optimal Control by the Set of Trajectories of a Singularly Perturbed Quasilinear System – A. G. Kremlev | 1746 | 1892 |
| A Differential Game with Integral Performance Criterion – N. Yu. Lukoyanov | 1759 | 1905 |
| Continuous Third-Order Method of Gradient Projection for Minimization Problems – A. Nedich | 1767 | 1914 |
| A Differential Pursuit Game with Disturbed Dynamics – M. S. Nikol'skii and Chg. Pan | 1775 | 1923 |
| Stabilization of Uncertain Systems with 'Pure' Delay in Control by Asymptotic Invariance Methods – A. P. Nosov | 1779 | 1928 |
| On Regularization of the Asymptotic Solution to a Control Problem Under Perturbations of the Set of Initial Positions – V. E. Pak and A. G. Chentsov | 1790 | 1939 |

| | Engl. | Russ. |
|---|---|---|
| Control of the Lyapunov Exponents of Consistent Systems. II – S. N. Popova and E. L. Tonkov | 1800 | 1949 |
| The Liouville Theorem in Optimal Control Problems – A. V. Pukhlikov | 1808 | 1958 |
| **PARTIAL DIFFERENTIAL EQUATIONS** | | |
| Stability of the Equations Describing the Interaction of Viscoelastic Plates with Liquid – P. A. Vel'misov, V. B. Kolmanovskii, and Yu. A. Reshetnikov | 1815 | 1966 |
| Optimal Control of Processes Described by Singular Parabolic Equations – I. A. Kipriyanov and A. A. Kulikov | 1829 | 1982 |
| On Solvability of the Cauchy Problem on a Flag for Overdetermined Systems of Nonlinear Differential Equations – M. V. Korovina | 1835 | 1988 |
| Constructing Approximations in a Homogenization Problem in a Partially Perforated Domain – O. A. Oleinik and T. A. Shaposhnikova | 1840 | 1994 |
| The Dirichlet Problems for the Lavrent'ev-Bitsadze Equation – A. P. Soldatov | 1846 | 2001 |
| The Tricomi Problem for a Mixed Equation of the Second Kind in an Unbounded Domain – R. S. Khairullin | 1854 | 2010 |
| **SHORT PRELIMINARIES** | | |
| Normal Boundary Problems for a Second-Order Equation with a Bounded Operator Potential – Z. I. Ismailov | 1861 | 2018 |

**Volume 30, Number 12, December, 1994**

| | Engl. | Russ. |
|---|---|---|
| **ORDINARY DIFFERENTIAL EQUATIONS** | | |
| Spectral Properties of Correct Restrictions and Extensions of the Sturm-Liouville Operator – B. N. Biyarov | 1863 | 2027 |
| Regularized Continuous Third-Order Gradient Projection Method – F. P. Vasil'ev and A. Nedich | 1869 | 2033 |
| Componentwise Equiconvergence with the Trigonometric Series of Expansions in Root Vector Functions of the Schrödinger Operator with Matrix Potential and Diagonal Matrix Eigenvalue – A. V. Dyadechko | 1878 | 2043 |
| Basis Property of Root Vector Functions Corresponding to Matrix Eigenvalues of a Matrix Schrödinger Operator – N. G. Ivin | 1886 | 2051 |
| Some Properties of Root Functions of an Ordinary Even-Order Differential Operator – A. A. Malov | 1897 | 2064 |
| **PARTIAL DIFFERENTIAL EQUATIONS** | | |
| Spectral Analysis of a Boundary Value Problem for the Schrödinger Operator with Complex Potential – A. S. Makin | 1903 | 2071 |
| The System of Root Functions of a Nonlocal Boundary Value Problem Is Not a Basis – E. I. Moiseev | 1913 | 2082 |
| **NUMERICAL METHODS. EQUATIONS IN FINITE DIFFERENCES** | | |
| A Class of Iteration Methods for Solving the Stationary Navier-Stokes Equations. II – V. N. Abrashin and S. L. Lapko | 1924 | 2094 |
| A Preconditioned Method of Conjugate Gradients with Double Projecting – S. S. Belyavskii, S. G. Mulyarchik, and A. V. Popov | 1935 | 2106 |

| | Engl. | Russ. |
|---|---|---|
| Methods of Control Theory for Numerical Integration of Ordinary Differential Equations – V. V. Dikusar | 1944 | 2116 |
| On Estimates of Error of the Bubnov-Galerkin Method for Coupled Thermoelasticity Problems – S. E. Zhelezovskii | 1950 | 2122 |
| Conditions of Null-Controllability for Linear Discrete Systems Under Constraints on Control – S. A. Minyuk | 1961 | 2133 |
| Application of Adaptive Grids to Calculate the Free Surface in Problems on Statics of a Magnetic Fluid – V. K. Polevikov | 1973 | 2146 |
| An Approximate Method for Solving the Spectral Problem in a Nonconvex Domain – V. G. Prikazchikov and G. S. Medvedev | 1979 | 2153 |
| An Iterative Method for the Solution of Integral Equations Applied to a Scattering Problem on a Three-Dimensional Transparent Body – A. B. Samokhin | 1987 | 2162 |
| **SHORT PRELIMINARIES** | | |
| Linearization of a Burgers-Type System Related to the Hamiltonian Structure of Ordinary Second-Order Differential Equations – S. P. Balandin and B. I. Suleimanov | 1998 | 2175 |
| On the Regularized Trace for a Power of the Laplace Operator on an Isosceles Right Triangle – V. V. Dubrovskii and I. V. Tomina | 2001 | 2177 |
| Nonlocal Elliptic Boundary Value Problems for Systems of Douglis-Nirenberg Type – A. A. Murach | 2005 | 2180 |
| Convergence of Collocation and Mechanical Quadrature Methods for Nonlinear Singular Integral Equations in the Space $L_p$ – V. N. Seichuk | 2009 | 2183 |
| A System of Basic Functions for Linear Differential Equations – V. V. Trefilov | 2013 | 2186 |
| Solvability of a Class of Generalized Differential Evolution Equations on a Closed Set. II – Ya. I. Umanskii | 2016 | 2188 |
| Analytic Solutions to Some Linear Systems of Functional-Differential Equations in a Neighborhood of a Regular Critical Point – V. B. Cherepennikov | 2020 | 2191 |
